

PROPANE (LPG) EDUCATION & VEHICLE DEMONSTRATION EVENT

Join Southern Colorado Clean Cities Coalition, Amerigas, Clean Start & ROUSH CleanTech

April 15th, 11 am to 2 pm, for a luncheon kick-off and propane technology demo at the El Paso County Fleet Facility, 3275 Akers Drive in Colorado Springs.

Call us today for more info!

UPDATE:

Metro Lawn & Heritage Propane Are Bringing Propane-Driven Commercial Lawn Care Equipment to demo!

RESERVATIONS ARE ENCOURAGED!
RSVP To:

Dianne Bertini, SC4
719-213-5001

Dianne@cleancitiescolorado.org

Schedule of Events

- 11:00 am - 12:15 pm - Presentations from ROUSH CleanTech, Amerigas, Clean Start & SC4
- 12:15 pm - Lunch provided courtesy of ROUSH CleanTech
- 12:45 - 2:00 pm - Propane vehicle & technology display

Learn how propane can save your fleet money, why your organization should use LPG, & where LPG fueling stations are located. This is not the same LPG of a few years ago. Learn how technologies have changed making propane the right choice!

SC4 will have the van to loan to those interested from April through May, possibly longer if interest prevails. Join us on April 15th to get on the calendar to borrow this vehicle and to learn more about LPG. Please note that SC4 members will have priority when borrowing the passenger van. The Propane Education Event is free to all.
